## PROFESSIONAL SUMMARY

Aspiring Data Analyst skilled in Python, SQL, Power BI, Excel, Machine Learning, and Data Visualization. Experienced in building analytical dashboards, performing exploratory data analysis, developing machine learning solutions, and transforming raw data into actionable business insights.

## EDUCATION

**Bachelor of Technology (Computer Science - Data Science)**  
*Sushila Devi Bansal College Of Enginnering*

2023 – 2027  
CGPA: 7/10

## TECHNICAL SKILLS

**Programming Languages:** Python, SQL

**Data Analytics:** Excel, Power BI, Pandas, NumPy, Statistics, Data Cleaning, EDA

**Visualization:** Power BI, Matplotlib, Seaborn

**Databases:** MySQL, MongoDB

**Tools:** Git, GitHub, VS Code, Jupyter Notebook, Google Sheets

## LEADERSHIP & ACTIVITIES

**Smart India Hackathon 2025 - Team Project: The Fair Mart**  
*National Level Hackathon Participant*

2025  
India

- Collaborated in a 4-member team during Smart India Hackathon 2025 to design and deliver a full-stack e-commerce platform within strict project deadlines.
- Implemented key e-commerce functionalities including product browsing, shopping cart management, user authentication, and secure checkout workflows.

## PROJECTS

**Credit Card Fraud Detection System** | *Python, Flask, Machine Learning* | [Live Demo](#)

- Built a machine learning solution for fraud detection using transaction datasets and predictive analytics.
- Performed data preprocessing, feature engineering, and model evaluation to improve classification performance.

**Netflix Movie Recommendation System** | *Python, Streamlit, Recommendation Engine* | [Live Demo](#)

- Built a recommendation engine capable of analyzing 5,000+ movie records and generating personalized content suggestions.
- Utilized machine learning techniques and Streamlit to deliver an interactive user experience.

**Black Friday Sales Analysis** | *Python, Pandas, EDA, Feature Engineering, Data Analysis* | [GitHub](#)

- Analyzed 500K+ retail transaction records to identify customer purchasing patterns and seasonal sales trends.
- Generated business insights using Python, Pandas, and exploratory data analysis techniques.

**Yatrikart Dashboard** | *Power BI, Data Visualization* | [GitHub](#)

- Designed an interactive Power BI dashboard tracking 10+ business KPIs and operational metrics.
- Created dynamic reports and visualizations to support data-driven decision making.

**Flipkart Sales Dashboard** | *Power BI, Business Intelligence* | [GitHub](#)

- Built a sales analytics dashboard to monitor revenue trends, product performance, and customer behavior.
- Developed KPI-based visualizations improving reporting efficiency and business analysis.

## ACHIEVEMENTS & CERTIFICATIONS

- **IEEE Inter-Branch Project Competition** – Received Certificate of Participation for representing the CSE-DS branch and showcasing technical innovation.
- **Google Student Ambassador Program 2026** – Awarded Certificate of Participation for active participation in Music Night Edition.
